

## Module : 3 (HTML5)

Date \_\_\_\_\_

Page \_\_\_\_\_

1) What are the New tags added in HTML5?

→ `<canvas>`

→ `<svg>`

→ `<embed>`

→ `<source>`

→ `<article>`

→ `<bdi>`

→ `<footer>`

→ `<header>`

2) How to embed audio and video in webpage?

→ `<body>`

`<audio controls>`

`<source src " " type = audio/mp3">`

`</audio>`

`<video controls>`

`<source src " " type = video/mp4">`

`</video>`

3) Semantic element in HTML5?

→ `<header>`

→ `<footer>`

→ `<article>`

→ `<main>`

→ `<mark>`

- <nav>
- <section>
- <time>

#### 4) Canvas and SVG tags

→ SVG defines vector-based graphics in XML format

ex `<svg width="100px" height="100px">`  
       `<circle cx="50" cy="50" r="40" stroke="green"`  
       `stroke-width="4" fill="yellow">`  
       `</svg>`

→ The HTML <canvas> element is used to draw graphics on the fly, via JavaScript.

ex `<canvas id="myCanvas" width="200" height="100"`  
       `style="border: 1px solid black;">`  
       `</canvas>`
